It consists of the Sovereign, a Grand Master (the Viceroy of India), the first class of forty-six Knights Grand Commanders (24 British and 22 Indian), the second class of one hundred and six Knights Commanders, and the third class of two hundred and thirty-seven Companions, exclusive of Extra and Honorary Members, as well as certain additional Knights and Companions.

The insignia are (i) the Collar of gold, composed of the lotus of India, of palm branches tied together in attire, of the united red and white rose, and in the centre an Imperial Crown; all enamelled in their proper colours and linked together by gold chains. (ii) The Star of a Knight Grand Commander is composed of rays of gold issuing from a centre, having thereon a star of five points in diamonds resting upon a light blue enamelled circular riband, tied at the ends and inscribed with the motto of the Order, *Heaven's Light our Guide*, also in diamonds. That of a Knight Commander is somewhat different, and is described below. (iv) The Mantle of light blue satin lined with white, and fastened with a cordon of white silk with blue and silver tassels. On the left side a representation of the Star of the Order.

The ribbon of the Order (four inches wide for Knights Grand Commanders) is sky-blue, having a narrow white stripe towards either edge, and is worn from the right shoulder to the left side. A Knight Commander wears (a) around his neck a ribbon two inches in width of the same colours and pattern as a Knight Grand Commander, and pendant therefrom a badge of a smaller size, (b) on his left breast a Star composed of rays of silver issuing from a gold centre, having thereon a silver star of five points resting upon a light blue enamelled circular ribbon, tied at the ends, inscribed with the motto of the Order in diamonds. A Companion wears around his neck a badge of the same form as appointed for a Knight Commander, but of a smaller size pendant to a like ribbon of the breadth of one and a half inches. Indian Titles; Badges.—An announcement was made at the Coronation Durbar in 1911, that a distinctive badge should be granted to present holders and future recipients of the titles of 'Diwan Bahadur', 'Sardar Bahadur', 'Khan Bahadur', 'Raj Bahadur', 'Rao Bahadur', 'Khan Sahib', 'Raj Sahib' and 'Rao Sahib'. Subsequently the following regulations in respect of these decorations were issued:—(1) The decoration to be worn by the holders of the titles above mentioned shall be a badge or medallion bearing the King's effigy crowned and the name of the title, both to be executed on a plaque or shield surrounded by a five-pointed star surmounted by the Imperial Crown, the plaque or shield being of silver gilt for the titles of Diwan, Sardar, Khan, Raj and Rao Bahadur, and of silver for the titles of Khan, Raj, and Rao Sahib. (2) The badge shall be worn suspended round the neck by a ribbon of one inch and a half in width, which for the titles of Diwan and Sardar Bahadur shall be light blue with a dark blue border, for the titles of Khan, Raj and Rao Bahadur light red with a dark red border, and for the titles of Khan, Raj and Rao Sahib dark blue with light blue border.

A Press Note issued in November, 1914, states:—The Government of India have recently had under consideration the question of the position in which miniatures of Indian titles should be worn, and have decided that they should be worn on the left breast fastened by a brooch, and not suspended round the neck by a ribbon as prescribed in the case of the badge itself. When the miniatures are worn in conjunction with other decorations, they should be placed immediately after the Kaiser-i-Hind Medal.

Indian Distinguished Service Medal.—This medal was instituted on June 25th, 1907, by an Army Order, published in Simla as a reward for both commissioned and non-commissioned officers of the regular and other forces in India. It bears on the obverse the bust of King Edward VII. and on the reverse a laurel wreath encircling the words *For Distinguished Service*. The medal, $1\frac{1}{2}$ inches in diameter, is ordered to be worn immediately to the right of all war medals suspended by a red ribbon $1\frac{1}{2}$ in. wide, with blue edges $\frac{1}{2}$ in. wide. This medal may be conferred by the Viceroy of India.

Indian Order of Merit.—This reward of valour was instituted by the H. R. L. Co. in 1897, to reward personal bravery without any reference to length of service or good conduct. It is divided into three classes and is awarded to native officers and men for distinguished conduct in the field. On the advancement from one class to another the star is surrendered to the Government, and the superior class substituted, but in the event of the death of the recipient his relatives retain the decoration. The order carries with it an increase of one-third in the pay of the recipient, and in the event of his death the allowance is continued to his widow for three years. The First Class consists of a star of eight points, $1\frac{1}{2}$ in. in diameter, having in the centre a ground of dark-blue enamel bearing crossed swords in gold, within a gold circle, and the inscription *Reward of Valour*, the whole being surmounted by two wreaths of laurel in gold. The Second Class star is of silver, with the wreaths of laurel in gold; and the Third Class entirely of silver. The decoration is suspended from a simple loop and bar from a dark-blue ribbon $1\frac{1}{2}$ in. in width with red edges bearing a gold or silver buckle according to class.

Order of British India.—This order was instituted at the same time as the Order of Merit, to reward native commissioned officers for long and faithful service in the Indian Army.

Since 1878, however, any person, European or native, holding a commission in a native regiment, became eligible for admission to the Order without reference to creed or colour. The First Class consists of a gold eight-pointed radiated star $1\frac{1}{2}$ in. in diameter. The centre is occupied by a lion *statant guardant* upon a ground of light-blue enamel, within a dark-blue band inscribed *Order of British India*, and encircled by two laurel wreaths of gold. A gold loop and ring are attached to the crown for suspension from a broad ornamental band $\frac{3}{8}$ in. in diameter, through which the ribbon, once blue, now red, is passed for suspension from the neck. The Second Class is $1\frac{1}{2}$ in. in diameter with dark-blue enamelled centre there is no crown on this class, and the suspender is formed of an ornamental gold loop. The reverse is plain in both classes. The First Class carries with it the title *Sardar Bahadur*, and an additional allowance of two rupees a day and the Second the title of *Bahadur*, and an extra allowance of one rupee per day.

Indian Meritorious Service Medal.—This was instituted on July 27th, 1888, and on receipt of the medal the order states "a non-commissioned officer must surrender his Long Service and Good Conduct medal": but on being promoted to a commission he may retain the M. S. Medal, but the annuity attached to it will cease. On the obverse is the diademed bust of Queen Victoria facing left, with a veil falling over the crown behind, encircled by the legend *Victoria Kaisar-i-Hind*. On the reverse is a wreath of lotus leaves enclosing a wreath or palm tied at the base, having a star beneath, between the two wreaths is the inscription for meritorious service. Within the palm wreath is the word *India*. The medal, $1\frac{1}{2}$ in. in diameter, is suspended from a scroll by means of a red ribbon $1\frac{1}{2}$ in. wide. The medals issued during the reigns of Queen Victoria's successors bear on the obverse their bust in profile with the legend altered to *EDWARDVS* or *GEORGIVS*.

THE KAISAR-I-HIND MEDAL.

This decoration was instituted in 1900, the preamble to the Royal Warrant—which was amended in 1901, 1912 and in 1935—being as follows:—"Whereas We, taking into Our Royal consideration that there do not exist adequate means whereby We can reward important and useful services rendered to Us in Our Indian Empire in the advancement of the public interests of Our said Empire, and taking also into consideration the expediency of distinguishing such services by some mark of Our Royal favour: Now for the purpose of attaining an end so desirable as that of thus distinguishing such services aforesaid, We have instituted and created, and by these presents for Us, Our Heirs, and Successors, do institute and create a new Decoration." The decoration is styled "The Kaisar-i-Hind Medal for Public Service in India" and consists of three classes. The Medal is an oval-shaped Badge or Decoration—in gold for the First Class, silver for the Second Class and in bronze for the Third Class—with the Royal Cypher on one side and on the

reverse the words "Kaisar-i-Hind for Public Service in India"; it is suspended on the left breast by a dark blue ribbon.

She has been managing the Khargi Department with rare skill and success, thus helping to lighten the burden of the Rajasahab in the management of the affairs of the State. During the Rajasahab's absence in England and the Continent she was in sole charge of the administration of the State as the Regent and made the fullest use of this opportunity to demonstrate her capacity for administration and her solicitude for the welfare of the people of the State. She has a religious turn of mind and with this her simplicity of habits and unassuming generosity of heart form a rare combination that makes her an object of reverence and affection both in and outside the palace.

Born: On 17th November, 1874.

Received liberal education in Sanskrit, Persian and English and is a great reader of books.

In his fondness for Shikar specially big game His Highness takes closely to his father the late Maharaja Sir Prabhu Narain Singh Bahadur. He is also a good rider and used to play polo in his earlier days.

His Highness possesses a thorough insight into the details of administration relating to all the important Departments and always devotes a considerable portion of his time to State work. He is readily accessible to all his subjects high or low and likes to hear all that they have to say.

The Kingdom of Benares under its Hindu Rulers existed from time immemorial and finds mention in the Hindu and Buddhist literature. In the 12th century it was conquered by Sahab-ud-din Ghor and formed a separate province of the Mohammadan Empire. In the 18th century when the power of Moghal Emperors declined after the death of Aurangzeb, Raja Mansa Ram an enterprising Zemindar of Gangapur (Benares District) obtained a Sanad from the Emperor Mohammad Shah of Delhi in the name of his son Raja Balwant Singh in 1738 and founded the Benares State, which comprised the four sirkars of Benares, Ghazipur, Jaunpur and Chunar. Raja Mansa Ram died in 1740 and his son Balwant Singh became the virtual ruler. During the next 30 years attempts were made by Safadar Jung and after him by Shuja-ud-daula of Oudh to destroy the independence of the Raja but the latter withstood them successfully, strengthened his position and built the Fort of Ramnagar on the bank of the Ganges opposite the Benares City. Raja Balwant Singh died in 1770 and was succeeded by his son Chet Singh. He was expelled by Warren Hastings. Balwant Singh's daughter's son Mahip Narain Singh was then placed on the Gadi. The latter proved an imbecile and there was maladministration which led to an agreement in 1794 by which the lands held by the Raja in his own right, recognised by the British Government, were separated from the rest of the province. The direct control of the latter province was assumed by the British Government under an arrangement by which the surplus revenue of the province which was worked out at the time to be one lac rupees was granted to the Raja while the former constituted the Domains. Within the Domains the Raja had revenue powers similar to those of a Collector in a British District. There was thus constituted what for over a century was known as the Family Domains of the Maharaja of Benares. On the 1st of April, 1911, the major portion of these Domains became a State consisting of the parganas of Bhadohi and Chakia (or Kera Mangraur). The town of Ramnagar and its neighbouring villages were ceded by the British Government to the Maharaja in 1918 and became part of the State. The State now consists of three districts, viz., Bhadohi, Chakia and Ramnagar.

The British system of administration in the U.P. is closely followed. The Diwan or Chief Minister is designated the Chief Secretary.

Jaisalmer State is a sovereign State in Rajputana. The Ruling House is the acknowledged head of the Lunar Race and the Rulers of Jaisalmer are the direct lineal descendants of Lord Shri Krishna. One of the most venerable and prized heirlooms of the House of Jaisalmer is the "Meghadambar"—the Regal Umbrella made by Vishwakarma—which was used by Lord Shri Krishna on State occasions. The eight-metalled umbrella which surmounts the palace of Jaisalmer towering high above the venerable walls of the historic hill-fort is emblematic of the "Meghadambar" and is indicative of the proud position which the House of Jaisalmer occupies in India as the head of the Lunar Race and its off-shoots. The Rulers of Jaisalmer are, therefore, styled as "Chhatrala Yadavapati"—the canopied Lords of the Yadavas. There is no Ruling House in India with the exception of Udaipur that can claim to be founded earlier than Jaisalmer. In the time of Maharawal Amar Singh (1661-1702) the Jaisalmer State was at the zenith of its power and glory and commanded an area of over 100,000 square miles. Its territory extended North to the Sutlej, comprising the whole of the Bahawalpur State, westward to the Indus including Sukkur, Bhukkur, Rohri, &c., in Sind; to the East and South included many districts such as Pugal (now in Bikaner), Pokaran, Barmer, Girab and Phalodi (now in Jodhpur). It was because of this vast territory that the Rulers of Jaisalmer were styled as "Pashchimdar Badshah", i.e., "the King of the Western lands." The State still commands an area of about 16,062 square miles and is the third largest State in Rajputana and eighth largest State in India including Kalat. During the reign of Maharawal Mulraj this State entered into Political Relationship, with the British Government by a Treaty of "Perpetual Friendship Alliance and Unity of Interests" in 1818. Jaisalmer State has never paid tribute to any power.

Mayurbhanj ranks first in point of population among the States of the Eastern States Agency, numbering forty-two, twenty-six of which were till recently known as the Orissa States, fourteen as the Central Provinces States, and two as the Bengal States. The history of its Ruling family goes back into hoary antiquity and numerous copper plate grants and archaeological finds testify to its powerful sway, and to the vast domains that constituted the territory of the Bhanja Kings, for hundreds of years. Its geographical and strategic position constituted it an important buffer State at the time when the East India Company and the Mahrathas were engaged in a struggle for supremacy in Eastern India and Mayurbhanj assisted the British cause. During the Mutiny of 1857, the Ruler of Mayurbhanj again distinguished himself as a loyal ally of the East India Company. The State is administered very much on British Indian lines, judicial independence, which has been secured under a full-powered High Court, being a special feature of its administration. The State is rich in mineral and forest resources and supplies the bulk of the iron ore needed for the Tata Iron and Steel Works of Jamshedpur. The activities of the Geological Department, recently organised by the State, are likely to lead to valuable results. The present administration is making every effort to promote the industrial interests of the State.

The town of Partabgarh was founded in 1698 by Partabsingh. The first connection of the State with the British Government was formed in 1804; but the treaty then entered into was subsequently cancelled by Lord Cornwallis and a fresh treaty was made in 1818. His Highness Lieutenant Maharaja Rajendra Prakash Bahadur was born on the 10th

January, 1913. He was carefully educated during the lifetime of his father who took special interest in giving his son the all-round training required for shouldering the heavy responsibilities of a ruler. When his father Lieut.-Col. His Highness Maharaja Sir Amar Prakash Bahadur, K.C.S.I., K.C.I.E., was absent in Europe, the administration of the State was placed in the hands of a council and the present Ruler was also put in it to gain practical training and knowledge of the administrative intricacies. The young Prince, a good scholar and intelligent far beyond his years, took full advantage of this arrangement and picked up the details of administration very quickly. In recognition of his exceptional administrative abilities he was installed to his ancestral gadi, much before the due time, in November, 1933, when he was only 21 years old.

The young Maharaja is a keen all-round sportsman. The breadth of his outlook and keenness of his intellect is manifest in all his administrative achievements. He has given strong proofs of these by introducing various remarkable progressive changes in his State within the short space of about four years and a half. When he took over the reins of government of the State, the administration was carried on by the Ruler with the assistance of four Secretaries and a separate High Court, of which the Ruler himself was the Chief Justice. Under the new constitution introduced by the present Ruler, a Council of four Ministers has been established to carry on the administration. A retired District and Sessions Judge from the U.P. Government has been appointed Chief Justice who administers justice with the assistance of another qualified lawyer appointed as a puisne Judge. The Judiciary has been completely separated from the Executive. All the departments have been thoroughly overhauled and highly qualified and experienced officers have been appointed to run them.

With a view to ameliorate the economic condition of the poor, a Rural Uplift Committee has been appointed to suggest, after thorough enquiry into local circumstances, ways and means of improving the lot of the poor peasants, and redeeming their old debts. A Co-operative Department has been created and 55 societies have already been established. An annual Agricultural and Industrial Exhibition is regularly run and great pains are taken to give various useful agricultural and industrial demonstrations before the cultivators. Experts are always invited to teach the ignorant cultivators the elementary laws of maternity and child welfare. People are also being taught by magic lanterns and lectures to take preventive measures against dangerous diseases.

The education and training of the future generation has not been neglected by His Highness, who has made generous grants to educational institutions in the State. In addition to the existing educational institutions for boys, he has started a Kanya Mahavidyalaya also, and is contemplating a scheme of introducing free Primary education throughout the State.

The Maharaja takes great interest in the training and pro-

gress of the Sirmoor Sappers and Miners, commanded by an experienced English Military

Officer, Major C. A. Grant Rundle, M.C. The Forces served in Afghanistan and offered aid in Egypt. They served in Mesopotamia also but were unfortunately shut up with General Townshend's forces in Kut, and only a small portion of the corps, which was employed at the base at Basra, escaped capture.

The State Crest & Coat of Arms.

The Maharaja is a staunch believer in Federation and thinks that the only way out of the present political difficulties lies in a true federal combination of provinces and the states under the British Crown.

SANDUR is the only Mahratta State in South India in direct political relations with the Government of India. It is bounded on all sides by the British District of Bellary except the South where its frontier touches that of Mysore. The Ruling House of Sandur is known by the family name of "GOOTYKER GHORPADE." This State was conquered in early eighteenth century by Raja Siddoji Rao Ghorpade. His son Raja Morar Rao Ghorpade is renowned in history as the famous "CHIEF OF GOOTY," and held sway over the Mahratta possessions South of Coleroon. During the time of Raja Morar Rao Ghorpade, the State reached the zenith of its territorial expansion. In the Carnatic and Mysore Wars in which the East India Company were engaged in the middle of the eighteenth century, Morar Rao, as the staunchest ally of the British, rendered valuable assistance to the British from time to time notably in the famous siege of Arcot and Trichinopoly and also against Hyder in 1769.

This family was held in high esteem by the British and included in the Treaty of 1782 with Mysore, by which the British Government reserved to themselves the liberty to reinstate Morar Rao's family in the Country of Gooty, which Hyder had seized during the time of Morar Rao who died in 1776. The present extent of the State is but a corner of the country of Gooty, which was reconquered in 1790 by Venkatrao on behalf of Siddoji, the grandson of Morar Rao from Tipu Sultan.

The Peshwa who had for long coveted very much the conquest of Sandur prevailed on the East India Company to demand the surrender of Sandur in 1817 on the pretence that the Ruler of Sandur was one of his refractory vassals, whom the East India Company were

bound by the Treaty of Bassein (1817) to reduce. But, when it was noticed that the Ruler of Sandur was never a vassal of the Peshwa, but that he was an "independent Prince" before the Treaty of Bassein, his former territory was restored to him in 1818, on the only condition that there should be free passage to British troops and surrender of offenders from the British territory, and that there should be no interference whatever with the internal administration of the State. These relations continue to the present day. The State possesses powers of life and death and is unfettered in the exercise of its sovereignty. The State pays no tribute to the Crown and is free

from all pecuniary demands.

The Ruler is the fountain-head of all authority, Judicial, Administrative, and Legislative. The Government of the State is conducted

by an Executive Council. To help the Government, a State Council has been constituted in 1931 with a predominant non-official majority possessing the right to initiate legislation, to move Resolutions and ask questions. A Chief Court has been constituted under the Sandur Chief Court Act (II of 1932) and arrangements have been made with the Madras Government whereby the District and Sessions Judge Ex-officio, Bellary is appointed

*Shrimant Morar Rao Ghorpade,
Heir-apparent.*

by the Ruler as the Nyayadhis of the Sandur Chief Court.

BALIHAR RAJ : KUMAR BIMALENDU ROY OF BALIHAR is the only son of Kumar Saradindu Roy Bahadur and Rani Kusum Kamini Debi. He was born in B.S. 1305, and belongs to an aristocratic family of North Bengal tracing its origin to the Ruling Houses of pre-British days.

During his boyhood he was placed under the training of the well-known scholar Sreejut Ramdayal Mazumdar, M.A., and was successively educated at the Hare School and the Presidency College, Calcutta. After a brilliant scholastic career he passed the B.A. Degree Examination of the Calcutta University with distinction in 1920.

Although young, he has great administrative abilities. On account of the unfortunate ill-health of his father, who leads a retired life in health resorts, the responsibility of looking after the affairs of the big estate devolved on him early in life.

Nevertheless he first put its finances on a sound footing and organised the administration of the estate so ably that he now stands high in the estimation of neighbouring landlords and British Officers not only of the Naogaon sub-division but also of Rajshahi and other bordering districts.

He married Srijukta Indu Prava Debi, a highly accomplished lady of Chowgram Raj family, and has three sons, Nirmalendu, Purnendu and Amalendu, who are all being properly educated.

A great patron of learning, he maintains all the educational, cultural, and charitable institutions founded by his forefathers, and has added to them High Schools (English) and libraries. He liberally contributes to all public causes for the uplift of the rural masses. A fully equipped and up-to-date charitable dispensary has been maintained at Balihar at the expense of the Raj for a long time now.

Kumar Bimalendu Roy possesses a good physique and is enthusiastic in spreading physical culture in Bengal. In his student days he was eagerly sought for to take part in every sphere of sports and physical culture for his excellent all-round attainment in this direction. He encourages all-round development as distinct from mere intellectual attainment and renders financial aid to movements calculated to further this end.

The Kumar's simple piety, stainless character, untiring diligence, liberal hospitality and above all treating rich and poor alike, have endeared him to his friends and admirers. He delights in living in his country seat at Balihar in rural surroundings and mixing freely with his tenants whose welfare he makes his principal concern.

Situated in the very heart of Balihar Raj Estate is the Historic Mound of Paharpur which is of great Archaeological interest quite familiar to students of Indian History. This was made over to Government by the Kumar with a view to enabling excavations to be carried out by eminent Archaeologists such as Sir John Marshall, K. N. Dikshit, etc., and other scholars under the auspices of the Calcutta University. The excavations reveal a high standard of sculpture in these relics of ancient Bengal, and prove how closely the history of this place is interwoven with the traditions of the Balihar Raj.

The Kumar offered his loyal services to the British Government by joining the Bengal Light Horse at the time of the Great War. A popular figure in the official levies and durbars, his love of sports and hunting has won for him the affection and regard of many British officers. He is a prominent member of the Rajshahi District Board which he has been serving for two consecutive terms with popular approbation.

HISTORY :—The Moghal records show that Ram Chandra Sanyal of this family received the title "Rai" (Raja) and also a "Badshahi Panja" (Imperial Insignia) which can still be seen at the Balihar Palace—from the then Nawab of Murshidabad, while his paternal uncle Ram Ram Sanyal, a great administrator, was granted the title "Rai Chowdhury" in 1729. The latter founded the famous Kali Temple at Dilalpur, which has been spoken of highly by the famous British traveller Dr. Taylor. He was also related to the great Rani Satyabati of historic renown who bestowed upon him a jagir for valuable services. Raja Rajendra Roy, another descendant in the line who lived at the time of the advent of the British in Bengal, installed the brass idol of Raj Rajeswari, constructed many Shiva temples and built a brass chariot which is taken through Balihar even today on the occasion of the annual Car festival. After him, his widow who was the only grand-daughter of Rani Bhabani of Nattore, well-known for her munificence, got learned Pandits to read the Great Mahabharata epic spending over a lac of rupees on this account. Her adopted son Shibaprasad Roy died prematurely.

Kumar Saradindu Roy Bahadur.

Raja Krishnendra Roy Bahadur.

RAJA KRISHNENDRA ROY BAHADUR who succeeded Shibaprasad Roy, in addition to managing the estate, divided his attention between public service and literary composition. His poetical works, *Banaparajay*, *Jayantaparajaya*, *Britra Sanhar*, *Adbhut Natak*, *Sitaharan*, *Sitacharit*, *Gitabali*, *Sukhabhram*, and his prose writings, *Ekhan Ashi*, *Swavab Neeti* testify to his great genius and culture. He has also translated *Rigbedi Sandhyaproyaga* into Bengali. A patron of Indian Music, he was himself a musician of repute and composer of songs. In his days English education was first introduced in Bengal, and limited though his knowledge of English was, he started free schools in his estate to popularise it. He built a hall to be used as a common room by the students of the Government College at Rajshahi and another for the Sub-divisional English High School at Naogaoan. To combat malaria and other epidemics he founded a free hospital on modern lines and improved sanitation by constructing a drainage system. Gardening was his hobby and the famous Mango Avenue—from Saraswatipur to Balihar,—was of his making. He had wide aesthetic tastes which found expression in the fine ornamental masonry work of the tanks at Saraswatipur and Bardapur for which he was responsible. As a shikari he hunted regularly in the company of British Officials such as Collectors and Commissioners of Divisions with whom he was intimate. The British Government conferred on him the titles "Raja" in B.S. 1285 and "Raja Bahadur" on the occasion of the Golden Jubilee of Queen Victoria, in celebration of which a fair was held at Saraswatipur near Balihar which is continued even today. On 20th of Baishakh 1305 B.S. Raja Krishnendra Roy Bahadur passed away at the age of 64 years, and was succeeded by Kumar Saradindu Roy Bahadur who received thorough liberal education at home. He also earned a reputation for his fine taste in Music and unflinching aim in shooting in the many hunting excursions of his early life.

Is a direct descendant of
Maharaja Chandoolal, the
first Hyderabad Statesman, to
realise the importance of
alliance between his sovereign,
the Nizam, and the British
Power and who laid down a
tradition for charity and
philanthropy in the family.

Maharaja Sir Kishun Pershad
lives up to these two ideals of the House. He was educated
first at the Nizam's College and then privately in Persian
and Arabic, particularly in the teachings of Sufism. Under
the nom-de-plume Shad he loves to write verses both in
Urdu and in Persian, mostly lyrics full of mystical thoughts.
He has also written many works in prose but mainly in Urdu.
Besides literature, his present hobby is sketching, particularly
landscapes in water colours. Maharaja Chandoolal as a des-
cendant of Todar Mal, the Minister of Akbar, culturally belonged
to the School of Akbar. Maharaja Sir Kishun Pershad Bahadur
also carried out the tradition of the house and treats Hindus and
Mahomedans with equality and without prejudice.

Shortly after, he along with Nawab (now Sir) Nizam Jung Bahadur reorganised the courts under the orders of His late Highness in the course of which the separation of the Judicial and Executive functions was strongly urged and eventually introduced. On his recommendation the Legislative Council was temporarily enlarged by the addition of elected non-official members from the mofussil but final orders were postponed pending consideration of an elaborate Report submitted by him and still pending decision. Address: Hyderabad House, Srirangam; Osmania Royal Avenue, Hyderabad, Deccan.

KUREISHY: RAFIUSHAN IFTIKHARUL MULK, KHAN BAHADUR, LT.-COL., HAJI MAQBOOL HASSAN, M.A., LL.B., Minister for Law and Justice, Bahawalpur Government: belongs to a respectable family of the Kureish of Arabia. Though hailing originally from the Meerut District, his ancestors had long settled in the State before he was born at Bahawalpur in 1900. He received his early education in the State, and, later on, joined the Muslim University, Aligarh, where he passed his M.A., LL.B. in 1925. From his earliest childhood he exhibited traits which gave promise of his future achievements.

His personal magnetism made itself felt in the sphere of his employment, where he won the golden opinions of his colleagues as well as the ruler under whom he served. He began his career in 1925, when he joined the personal staff of His Highness the Nawab Ruler Bahadur of Bahawalpur as an Aide-de-Camp. But, it did not take long to discover that the young incumbent had in him the makings of a capable administrator. Accordingly, in 1927 he was promoted to the rank of Assistant Military Secretary. But this was only a stepping stone, as in January 1930 he was given the combined office of Private and Military Secretary, with the additional charge of the portfolios of Education and Municipalities, and was, subsequently, raised to the status of Minister-in-Waiting. In 1932 he paid a visit to England and other Western countries in company with His Highness the Nawab Ruler Bahadur—a visit which he repeated again in 1935 and in 1936. The beautiful volume in which he has chronicled the impressions of his first itinerary is an eloquent testimony of his great powers of observation and expression. He has also been to the Near East and performed the holy pilgrimage. Recently, his services to the State were recognised by the Government by the grant of the title of Khan Bahadur, which is the first distinction of its kind to be conferred upon a purely Riyasti Vizier in the State. He is also the recipient of many decorations and distinctions from the State, and is a member of the Court of Muslim University, Aligarh and His Highness the Nawab Ruler Bahadur's representative in the Senate of the Punjab University.

During the 9 years of his incumbency he has introduced many useful administrative reforms in the departments under his control, particularly the Municipalities, and the Court of Wards which he has completely reorganised. It is due mainly to his efforts that the Chief Court of Bahawalpur has been raised to the Status of High Court. He is a very capable and efficient administrator, having won the highest praise of both the ruler and the ruled by his politeness, impartiality, and keen sympathy with the people of the State. He is immensely popular with all classes of His Highness's subjects.

MYMENSINGH ESTATE: MAHARAJA SHOSHI KANTA ACHARYYA CHAUDHURY of Mymensingh, one of the Chief Noblemen of the Presidency of Bengal, was born at Muktagacha in Mymensingh on the 24th February, 1886. He is the son of the late Maharaja Surja Kanta Acharyya Bahadur, an illustrious Zemindar of Mymensingh, well-known for his many-sided public activities in the province of Bengal, especially for the bold and courageous stand he took in "unsettling the settled fact of the partition of Bengal." Under the nursing care of his illustrious father Shoshi Kanta received his early education with great care and keen solitude. He was educated at the St. Xavier's College, the Doveton College and the Presidency College, Calcutta. He passed the Entrance examination in the year 1904. He went to England for higher education in the year 1907 and joined Downing College, Cambridge. He successfully passed the

Littlelog and Additional Examinations and was preparing for the B.A. & LL.B. degrees and also joined Gray's Inn, to qualify for the Bar, but he had most reluctantly, to give up his much coveted studies in England and hurry back home on account of the sudden death of his father and to shoulder the responsibilities of his extensive estates.

Shoshi Kanta inherited from his father a noble and benevolent disposition and high ideal of public spirit. Though a young man, just above his teens, he began to take lively interest in higher education in his own district and his first act of public benevolence was his princely donation of Rs. 45,000 in the year 1900 to the Ananda Mohan College, Mymensingh, which in later days, he supplemented by further donations for the establishment of I. Sc. Class in the same College. His contribution of 1,00,000 rupees in the year 1910 towards the Edward Memorial Fund for the improvement of Mifford Hospital at Dacca deserves particular mention, the cause of Amelioration of suffering humanity is innate in his nature. In 1920, when the Mymensingh Hospital required further extension, Shoshi Kanta made a free gift of land worth about Rs. 30,000 for its new site and contributed 1,00,000 rupees to the Hospital Fund to name it after his illustrious father. He has further equipped the hospital with an X-Ray apparatus at a cost of Rs. 38,000 and has granted an annual subscription of Rs. 1,000 for the upkeep of the hospital. He further gladly made over to the Hospital a sum of Rs. 17,000 received from the Government for value of his lands occupied by the old hospital and now acquired for kotwali thana. In 1910, he contributed Rs. 1,000 towards the cost of the construction of the new Ripon College building, Calcutta. The Maharaja contributed Rs. 2,000 to the Madras famine fund. The devastating flood of Damodar in 1913, moved Shoshi Kanta's heart and he readily contributed Rs. 1,000 for relief work. During the great war in 1914 he contributed Rs. 80,000 for the purchase of a fleet of six Ambulance Motor cars for the Red Cross Society and paid Rs. 40,000 towards the various war relief and ambulance corps funds. He subscribed to the Indian War loan to the extent of 1,00,000 rupees. He has also contributed Rs. 2,250 and Rs. 1,500 to the Silver Jubilee Fund and King George Memorial Fund respectively.

Maharaja Shoshi Kanta filled a long felt want in Mymensingh town by establishing at a considerable cost the Carmichael Club, where Europeans and Indians, officials and non-officials, have an opportunity to meet. It was mainly due to his efforts that electricity is available at Mymensingh. Besides these acts of benevolence, the Maharaja has granted

monthly stipends to many deserving students and has undertaken to defray foreign education of some of them. Many public and charitable institutions and bodies are regularly receiving his contributions and his purse is always open for all deserving causes.

Shoshi Kanta entered public life in the year 1912 when he was only 26. On the formation of the Presidency of Bengal, he was elected by the land-holders of the Dacca Division to represent their interests in the Bengal Legislative Council. When the Reforms were inaugurated in 1921 Maharaja was nominated by the Governor-General a member of the Council of State. In 1927, Maharaja entered the reformed Bengal Legislative Council as an elected representative of the Decca University graduates. His career in the legislatures is marked by his outspoken advocacy for popular cause in principle. Being in Council, he was a real asset to his community and his persistent zeal and unflinching devotion to their cause were amply demonstrated when he took a keen interest in the moulding of the Bengal Tenancy Act in 1927 to the satisfaction of landlords and tenants alike. Among his other public activities, Maharaja Shosi Kanta was unanimously elected Chairman of the Mymensingh Municipality in 1918 and transacted all its business with conspicuous efficiency till 1921. He also was elected Chairman of Muktagacha Municipality, his native place in 1912. He is connected with various public bodies. He acted as President of the East Bengal Landholders' Association for several years and is the President of the Mymensingh Landholders' Association and the Secretary of the Bengal Landholders' Association. Maharaja Shoshi Kanta is a liberal Hindu and a great social reformer. He is the President of the Hindu Hita Sadhini Sava, a society formed in 1917 for the elevation of depressed classes and for bringing about social and moral regeneration of the Hindus. As soon as the Harijan movement was started by Mahatma Gandhi, Maharaja Shoshi Kanta opened his ancestral Kali and Shiva Temples for worship by all classes of Hindus. He is the President of the Mymensingh Hindu Sabha and presided over the deliberation of Mymensingh District Hindu Conference held at Tangail and was the President of All Bengal Hindu Conferences held at Hilli and Canning Town. He has made over his Palatial House at Benares to the Hindu Mission for the uplift of the Hindus. In Mymensingh Town he has recently constructed a beautiful Siva Temple and has made a free gift of land to the Mymensingh Ram Krishna Pratisthan a social and religious institution of the place.

He is a thorough sportsman and was a very good cricketer in his young days. He was the captain of the Town Club, Calcutta, for several years. To give incentive to Mymensingh Cricket the Maharaja retained many veteran players to coach the local young men. He is also fond of hunting and a lover of games.

In recognition of his public spirit and munificence, His Excellency Lord Hardinge conferred on him the title of Raja Bahadur on the 1st January 1913, at a comparatively young age. Later on, in 1920, the title of Maharaja was bestowed on him by Lord Chelmsford in appreciation of his manifold acts of public utility.

Maharaja Shoshi Kanta has married the third daughter of the late lamented Mr. Byomkesh Chakraborty, M.A., Bar-at-Law of Calcutta. He has three sons and three daughters. His youngest son, Maharaj Kumar Snchangsua Kanta Acharyya who is a graduate of the Calcutta University has proceeded to England for higher studies. All his daughters are married.

Maharaja Shoshi Kanta is remarkable for his simple habits, unimpeachable moral character, charitable disposition and unostentatious manner of living. His high culture, affability and amiability of character are too well-known. He is accessible to all from the powerful down to the man of the street, is kind and benevolent to his tenants and officers, modest and a man of his word, always firm and unyielding in matters of public duty, he is a true ideal, the like of which are very few in these days. By a recent circular, the Maharaja has announced that 5 per cent. of his annual income should be spent for agricultural improvement and for provision of drinking water to the tenants in the villages. In 1937 the Maharaja Sahab was elected a member of the Bengal Legislative Assembly by the Dacca Division Landholders' constituency defeating the president of the then Council.

Educated: Privately.

Married: In 1934 Begam Faruk Sultana, younger daughter of Md. Moshrraf Yar Khan of Jaora. Has two sons, Md. Shujaat Ali Khan and Md. Azmat Ali Khan.

Mirza Md. Moshrraf Yar Khan is related to H. H.

Nawab of Jaora being a grandson of the late Mirza Karim Yar Khan, Commandant Camp-Methpur Malwa. Karim Yar Khan himself was the descendant of Sultan Mirza Hyder Beg Zoogllat, Nephew of Emperor Babar, who conquered Kashmir in 1540.

History: A young man of 32 years, Nawab Mirza Moazziz Khan is the head of the descendants of Nawab Imtyazood Dowlah of Moazziz Maazud Khan Bahadur Dilerjung of Broach who lived during the third quarter of the 18th century and who concluded a treaty of peace, friendship and assistance in 1771 with the Hon'ble William Hornby, Esq., President and Governor, etc., Council of Bombay, on behalf of the Hon'ble United East India Company. As, however, the terms were not very liberal to the Nawab, hostilities ensued with the result that Broach passed into the hands of the British Government by the treaties of Purandhar and Salbai, but was ceded to Sindhia in 1783. After a number of vicissitudes, Broach finally became a British possession after the Maratha War of 1803, and the descendants of the last Nawab of Broach were granted hereditary pensions by the British Government, which they enjoy even today. NANPARA ESTATE: RAJA SYED MOHAMMAD SAADAT ALI KHAN, the present Raja of. Born in the year 1904. Educated at the Colvin Taluqdars' College, Lucknow. His father Raja Syed Mohammad Ashfaq Ali Khan was a poet of great repute and author of many books. His late mother Rani Mohammad Sarfraz Begam of the Mohamdi estate, district Lakhimpur Kheri, Oudh, was well-known for her efficient management of the Estate, and acts of benevolence.

During the Great War Rani Mohammad Sarfraz Begam helped the British Government with men and money. The Lucknow University owes her its gratitude for a substantial donation as well as the King George's Medical College and the Prince of Wales' Zoological Gardens at Lucknow.

Raja Syed Mohammad Saadat Ali Khan possesses in him the literary qualities of his learned father and the managing capacity and generosity of his benevolent mother, to which he has added the vast experience of a traveller having visited many times the continent of Europe and the near East.

There are many Muslim organisations which are indebted to Raja Syed Mohammad Saadat Ali Khan for his financial help and guidance.

Raja Syed Mohammad Saadat Ali Khan is a sportsman in the real sense of the word. He is fond of shikar and is a good shot. He plays tennis, polo and swims. He is a member of all the leading clubs in Paris, London and India. He is also a member of the U. P. Legislative Assembly. He is President of the M. P. Cricket Association and of the U. P. Provincial Moslem League. He is also a patron of the U. P. Aero Club.

Raja Syed Mohammad Saadat Ali Khan also succeeded to the Nanpara Estate in the year 1911—thus bringing both the Estates of Nanpara and Mohamdi under his sway. Hence he is generally known as the Raja of Nanpara—a premier estate in the province of Oudh. The estate of Nanpara has a special reference to its history in the Gazetteer of the Bahraich district. Raja Sir Jang Bahadur Khan, K.C.S.I., maternal grandfather of Raja Syed Mohammad Saadat Ali Khan, can well be styled a most generous and towering personality that has ever owned a Taluqa in Oudh. The title of Raja to the House was conferred in 1763 by Nawab Shuja-ud-Daula, King of Oudh, and recognised by the Government as hereditary. Both the Estates of Nanpara and Mohamdi are very old and reputed for their loyal traditions and royal history.

Government Revenue : 3 lakhs.

NAWAB SIR MOHIUDDIN FAROQUI, the only son of Kazi RAYAZUDDIN MUHAMMAD FAROQUI, was born in the year 1891 and belongs to one of the few historic families of Bengal. He is the eleventh in descent from Kazi Omar Shah Farouqi, a lineal descendant of Hazrat Omar Farouqi, the second Khalif of Arabia, who migrated to India and settled at Delhi. He was sent out to Bengal as a military commander by Emperor Furrokhshiar and in recognition of his meritorious services was given the grant of extensive Jaghir (rent-free-land) of two parganas in the district of Tippera in Bengal and the original Sanad conferring the Jaghir by

Emperor Furrokhshiar is still in the possession of Nawab Sir Mohiuddin.

Nawab Sir Mohiuddin was educated at the Dacca College under the guardianship of Mr. Archibald, the Principal of the College. Even from a comparatively early age he developed a spirit of public service and a love for public life.

He was the first non-official Chairman of the Tippera District Board, a Commissioner of the Comilla Municipality, Member of the Assam Bengal Railway Advisory Board, Member of the Dacca University Court, an Honorary Magistrate and a Member of the Governing Body of the Comilla College for several years before he entered the arena of politics. As the Chairman of the District Board, he took a very active interest in the matter of communications and the results of his endeavours in this direction may now be seen in the improved roads and well-built bridges widely spread over the district. The Comilla Water Works and the Electric Supply, which have done inestimable benefit to the town, came into existence largely, if not absolutely, owing to the untiring efforts of the Nawab Sahib. A service of immense value that he did, while in the District Board, was the provision of rural water supply by boring tube-wells. He encouraged the spread of education, higher and primary, in his district and it was he who was instrumental in raising the Comilla Victoria College from the second-grade to the first-grade institution that it is to-day.

He was a member of the Bengal Legislative Council since the introduction of the Montagu-Chelmsford Reforms and was the non-official Chief Whip of the Council till he was appointed in 1929 Minister to the Government of Bengal in charge of Agriculture, Industries, Co-operation, Veterinary Department and Public Works. It is a matter of no little honour and distinction that he was elected by the Bengal

Legislative Council to represent the Province in the Provincial Simon Committee where his services were acknowledged with great appreciation by the Rt. Hon'ble Sir John Simon. Nawab Sir Mohiuddin was the Leader of the House in the Council and this was perhaps the only and the first instance in the history of Provincial Councils that a Minister (who was returned as an elected member) had been made the Leader. The services that he gave as the Leader of the House, to the country and the Government were worthy of his trained sagacity, mature experience and wide knowledge of men and matters.

As a Minister to the Government Nawab Sir Mohiuddin gave effect to a considerable number of measures which have already had, or are likely to have in future, far-reaching results in improving the conditions of agriculture and industry of the Province. He introduced and successfully piloted the State Aid to Industries Act, a measure of great promise and usefulness, inasmuch as it affords an opportunity to small and nascent industries to grow up with aid, as far as possible, from the Government. His scheme for the relief of unemployment amongst educated middle-class young men is of great significance and is the first of its kind since the inauguration of the Reforms, intended to open up new avenues of employment through industrial development of the Province. The United Provinces Unemployment Committee, presided over by the Rt. Hon'ble Sir Tej Bahadur Sapru, P.C., K.C.S.I., LL.D., has in its report many words of praise for the scheme. He took steps to establish Co-operative Land Mortgage Banks for the relief of agricultural indebtedness and his scheme for restriction in the cultivation of jute with a view to fetch a better income to the cultivators has been a measure of immense benefit. He made serious endeavours to improve the animal husbandry of the Province and significant results are already available of the various agricultural researches taken up at his instance. The scheme for the training of detenus (persons detained for political reasons) in industrial and agricultural pursuits in order to afford them an opportunity to prove themselves useful citizens, is now having a trial and its results are awaited with interest all over India. Nawab Saheb was the author of the Water Hyacinth Act which provided for removal of the water hyacinth pests from the province with organised effort. As a result many districts in Bengal are now entirely free from this pest. To give cheap credit facilities to commercial people an Industrial Credit Corporation Bank has been established with ten lakhs guarantee against loss by Government. The Daulatpur Agricultural College has been established for agricultural education and is the only one of its kind in the Province.

He enjoys the confidence of all sections of the people in the Province. In recognition of his meritorious services and activities he was honoured with the title of "Khan Bahadur" in 1924, with that of "Nawab" in 1932. On the New Year's day, 1936, His Majesty the late King-Emperor conferred on him a Knighthood, a distinction which he richly deserved.

He married Quatrina Sultana Zobeida, eldest daughter of the Hon'ble Alhadj Nawab Bahadur Sir Abdelkerim Ghuznavi, Kt., of Dilduar, Ex-Member of the Executive Council, Government of Bengal.

NAWAB MUHAMMAD MOIN-UD-DIN KHAN, NAWAB MOIN-DOWLA, BAHADUR, the only son of the late Nawab Sir Asman Jah Bahadur, one of the three great Paigah Nobles of the Hyderabad State, was born in Hyderabad (Deccan) in the year 1891. Nawab Moin-ud-Dowla's Paigah or feudal state covers an area of 1,821 square miles and has a population of 276,533, while its annual revenue amounts to Rs. 22 lakhs.

He carries on the administration with the help of a Council consisting of a President and two Members.

SHRI SHANKAR MANIK PRABHU MAHARAJ, MANIKNAGAR. Holder of the Gadi of SAKALMATACHARYA SHRI SADGURU MANIK PRABHU MAHARAJ.

Born : At Maniknagar in October 1895.

Educated : At Maniknagar and Hyderabad. A lucid orator and a master exponent of the Vedant branch of Indian Philosophy. An Advocate of the High Court of Hyderabad, worked as Secretary of the Shri Manik Prabhu State during the lifetime of the late SHRI MARTAND MANIK PRABHU

MAHARAJ. Came to the Gadi in March 1936, after the demise of the late Maharaj. He has been quite successful in his administration.

The founder of the Gadi or the institution was—

Sakalmatacharya Shri Sadguru Manik Prabhu Maharaj.

Born : In 1817 A.D., at Ladwanti (a Paigah village). Manohar Naik, the father of Shri Prabhu, was a member of a wealthy "Naik" family of Kalyani. He died when Shri Prabhu was only four years old. Shri Prabhu spent his boyhood at Kalyani at his uncle's house. Even when he was a boy of eight or so, he performed many strange and extraordinary miracles, which convinced people around of his greatness, and they were inspired to regard him as an incarnation of God. Later, Shri Prabhu made Maniknagar his place of residence. Maniknagar, which today stands on the inam lands of the State, was a thick forest haunted by robbers and highwaymen, before Shri Prabhu came to stay here. This was a period of tumult and unrest in the history of the Deccan. The struggle for existence had been very hard, and the rivalry between the different communities very keen.

At this critical juncture Shri Prabhu founded his "**Sakalmat-Sampradaya**"—a sect which comprehends all thoughts and creeds. A perfect seer and a saint, he preached by personal action and spread the cult of universal love, brotherhood and co-operation.

The **Sakalmat-Sampradaya**, as he named his sect, believes that soul-force is the foundation of everything, and the source of all desired objects in this world or beyond. One single soul pervades the universe, and whatever is created has its use and value. Each one of us is on the same pathway to God, though the form of worship may vary according to individual taste and spiritual rank. Forms of worship being mere expedients will always be multiple. This sect proposes to guide to salvation any one who seeks help without compelling him to give

The Founder :

Shri Prabhu was famous for his liberal charities and open-handed gifts. True to his cult of love and toleration, he celebrated the festivals of the Hindus and the Mohamedans alike, with great pomp and dignity.

Shri Prabhu has been Universally acknowledged as an "avatar" OF SHRI DATTATRAYA. Endowed with supernatural powers, his life was studded with miraculous acts from boyhood till the end. One of the many such miracles in which Shri Prabhu saved a sinking ship from his seat has been alluded to by Maharaja Sir Kishen Prasad Bahadur in his memories "Jajbat-e-shad".

Shri Prabhu observed "brahmacharya" up to the last, and chose to close the chapter of his existence by entering "samadhi" in 1865. His mission was successfully continued by his two nephews:

- (1) SHRI MANOHAR MANIK PRABHU (1865-1877).
- (2) SHRI MARTAND MANIK PRABHU (1877-1936).

Mr. Appasaheb Deshpande, an Inamdar of Kalyani, manages the institution as the Secretary. A graduate of the University of Bombay, he was a Daxina Fellow at the Deccan College, Poona. He took a keen interest in the activities of the college and has aptitude and zeal for public work which has enabled him to adapt himself easily to the present environments and spiritual developments.

Address :—Maniknagar, Hominabad.

up his own sect. It believes in revealing Godhead to the Yogis in their Yoga, to the ritualists in their rituals.

Religious opinions have no reason to breed hatred. Hatred is never begotten by a truly religious view, but by the vulgarised pride of the Fetish. To annihilate such hatred, to help men realise in their practised life that blissful state of which Shri Shankaracharya sang, to liberate the fallen from the clutches of ignorance, and to bring salvation to every mortal—these are the aims for which the **Sakalmat** sect stands.

UNIARA: RAO RAJA
SARDARSINGHI
BAHADUR of Uniara.

Born: On 3rd October 1894.

Succession: 1913.

Married: The daughter of Thakur Sahib of Lakhtar, has four sons.

A Kachhawa Rajput, the Raja Saheb traces his descent to Udaikaranji of Amber, whose great-grandson Narooji founded the Naruka House and left five sons. The eldest Rao Dasa was the ancestor of the Uniara family, and the second Rao Lala, of the Alwar family. The Rao Raja Bahadur is the head of the Naruka branch of that family settled in Jaipur, a powerful feudatory of the State, paying a tribute of

Rs. 38,338 to the Durbar, and holding an area of some 400 square miles at a distance of 70 miles to the south of Jaipur. Rao Chandrabhan was a Mansabdar of the empire and participated in the Balakh, Badksha and Kandhar expedition of Shahjehan, and his son Fatehsinghi participated in the war of succession against Dara Shikoh. In the battle of Sambhar—Maharajas of Jaipur and Jodhpur *versus* the Syed Brothers Hussainali and Abdullakhan—Rao Sangramsinghi won the day, snatching the flags from the Syed, which with the village Jaisinghpura given by the Maharaja of Jaipur still constitute the property of the chiefship. Rao Sardarsinghi I received the title of Rao Raja Bahadur with Char Hazari Mansab, 2,000 cavalry, Nakkara and Nishans from the emperor Shah Alam the I. Maharaja Sawai Pratapsinghi conferred upon Rao Bishensinghi the hereditary title of Rao Raja, a salute of 5 guns, and Morchhals in Sambat year 1843—the recognised emblem of royalty. In the same Sanad the Maharaja recognised the civil and judicial and administrative powers of the chiefship. This Sanad was reconfirmed in Sambat year 1889 by Maharaja Jaisinghi.

The Rao Raja Bahadur enjoys all the hereditary honours and titles and carries on the administration of the chiefship in accordance with the spirit of modern times. He has opened a dispensary at Awan in addition to one at Uniara, has raised the upper primary school to Middle school and opened branch schools in all the Tehsils. He is very social and popular. In the Great War he furnished 250 recruits and subscribed Rs. 20,000 to the War Loan.

There are many places of historical and architectural importance in the territory. *Population:* 36,763. *Revenue:* Rs. 4 lacs.

Hair-apparent: Rajkumar Rajaindersinghi.

Address: Uniara, Rajputana.

YUSUF: NAWAB SIR MUHAMMAD, Kt., Barrister-at-Law, is the biggest and most influential landholder in the eastern districts of the United Provinces. He is a hereditary Nawab and has been a member of the Legislative Council since the inauguration of the Montagu-Chelmsford Reforms in 1921. He was appointed a Minister in 1926 and continued in that office for nearly 12 years until the introduction of the Provincial Autonomy. He was also in the Interim Ministry formed under the new constitution. He has travelled widely and has made a special study of the people and problems of the United Provinces. He has rendered great public service by infusing a real spirit of self-government in the local bodies which has enabled and encouraged them to discharge their duties and obligations towards the public more effectively and efficiently. His personal interest and guidance in the affairs of the local bodies has been responsible for greater amenities to the public. It was through his patronage that the U.P. District Boards' Conference was originated and has been working so successfully.

The high standard of the provincial roads that the province can rightly boast of is the result of the continuous and untiring efforts of Nawab Sir Muhammad Yusuf in the Public Works Department. The great progress made by the Public Health Department, the increasing efficiency and popularity of the Medical Department, the growth of the co-operative movement and the general efficiency of the Registration and Veterinary Departments are all due to his sound and efficient administration during the last 12 years. He has always shown the spirit, initiative and enthusiasm for the good of the people and the province.

His services in the cause of the landholders are too well-known to be reiterated. In the well-being and uplift of the zemindars and the tenants he has always evinced keen and personal interest. An active worker of the Agra Province Zemindars' Association, he carried on an intensive campaign throughout the province and did his best to consolidate the position of the zemindars. In fact, it would be no exaggeration to say that the Agra Province Zemindars' Association is a lasting monument to his untiring and zealous efforts.

Several educational and religious institutions owe their existence to his generous and charitable disposition. His courtesy and obliging nature have won for him a popularity which is coveted by so many to-day. He has always been very popular in the council and during his term of office as Minister wielded enormous influence over the members of the legislative council. He is the best speaker on government benches and his influence in the councils has proved beyond a shadow of doubt that he is a pillar of real strength both to the government and the public at large.

He is one of the most influential leaders of the Muslim community of All-India importance. He has contributed in no small measure in maintaining and consolidating the solidarity of the Mussalmans in India and has helped them in following a wise and sound policy in the interests of the country. He has rendered signal services to the Muslim community and by dint of his patriotism, is held in high esteem by persons of all schools of thought.

He is universally liked and respected both by officials and non-officials—Muslims and non-Muslims, and in him one can find a real example of a selfless worker who is always striving to do some real good to the people. His impartiality is well-known and he commands the confidence of the Hindus and Muslims alike in these provinces.

The Calendars.

A full Calendar will be found at the beginning of this book. Below are given details of the other Calendars in use in India.

The *Jewish* Calendar is in accordance with the system arranged A.D. 358. The Calendar dates from the Creation, which is fixed as 3,760 years and 3 months before the beginning of the Christian Era; the year is Luni-solar.

The *Mohammedan*, or era of the Hejira, dates from the day after Mahomet's flight from Mecca, which occurred on the night of July 15, 622 A.D. The months are Lunar.

The *Fasli* year was derived from a combination of the Hejira and Samvat years by the order of Akbar; it is Luni-solar. The *Bengali* year seems also to have been related at one time to the Hejira, but the fact of its being Solar made it lose 11 days each year.

The *Samvat* era dates from 57 B.C., and is Luni-solar. The months are divided into two fortnights--*sudi*, or bright, and *badi*, or dark. Each fortnight contains 15 tithis, which furnish the dates of the civil days given in our calendars.
